

East Asia Science and Innovation Area Joint Research Program ("e-ASIA JRP")

28 June, 2012

1st Board Meeting of the Program

Presented by

Department of International Affairs

Japan Science and Technology Agency

1. Goal of “e-ASIA JRP”

to promote further development and innovation in the East Asia region by addressing regional and global challenges through research collaboration

2. Philosophy of the Program

- ❑ Pursuing synergistic effects by multilateral research cooperation in the East Asia region;
- ❑ Sharing outcomes and promoting social application for innovation;
- ❑ Fair and square decision making based on scientific excellence and socio-economic impacts;
- ❑ Reducing disparity in S&T potential through collaboration
- ❑ Respecting the diversity in the region such as in politics, society, peoples, culture and history.

3. The “e-ASIA JRP is;

- A Framework for multilateral collaboration in science and technology
- A matching fund system to support multilateral joint research projects by member countries.

4. The effects that are expected of the Program

- **Collaborative opportunities** in science and technology will be generated.
- Innovative and robust society and economy by lifting up level of science and technology will bring **competitiveness** to the whole region.
- The East Asia Region will contribute also to the other part of the world through **research outcomes** from the Program.

5. The prospective Members

- Ministries, agencies or other public/governmental bodies, which provide research fund, of EAS (East Asia Summit) 18 member countries

(member countries of ASEAN, China, ROK, India, Australia, New Zealand, USA, Russia and Japan)

Welcome to e-ASIA JRP

Thank you.
