

Potential partners of collaboration

Opinion from Laos: We are happy to have more collaboration with other countries such as ASEAN + 8 (Australia, New zealand, China, Korea, Japan, India, Russia, USA)

Future direction

- Biotechnology for agriculture
- Food security
- Renewable Energy
- High value medicinal plants research and development for commercialisation
- Endangered plant species study and conservation
- Environmental conservation and improvement

National Cooperation Partners

1. Biotechnology and Ecology Institute, MOST
2. Renewable Energy and New material Institute, MOST
3. National Agriculture and Forestry Research Institute, MAF
4. Forestry Research Center, MAF
5. Institute Pasteur du Laos
6. Institute of Traditional Medicine, Ministry of Public Health
7. Agricultural Production Division, Ministry of Defense
8. Faculty of Science, National University of Laos
9. Ministry of Natural Resources and Environment
10. National Center for Laboratory and Epidemiology
