

Webinar for Online Researcher and Research Resources Sharing

researcher database in Japan

March 11th, 2021

Nao Kasuya, Chief,
Masashi Hara, Manager

Dept. for Information Infrastructure
Japan Science and Technology Agency (JST)

科学技術振興機構

Top page of researchmap

The screenshot shows the top page of the researchmap website. At the top left is the 'researchmap' logo. To the right are links for '日本語 | English', 'Sign up', and 'Login'. Below these are navigation links: 'Researcher Search', 'Community Search', and 'Contact Us'. The main banner features a large 3D graphic of the letters 'R' and 'M' constructed from wooden bookshelves filled with books. To the right of this graphic is the Japanese text: 'ようこそ! 新しくなった researchmap へ! 業績管理をもっと簡単に、もっと快適に。'. Below the banner is a 'メニュー' (Menu) section with a dropdown arrow, containing links to 'About researchmap', 'Contact Us', 'About New Registration', and 'Terms of Service'.

Outline of researchmap

- Targeting **a comprehensive database of researchers information** for researchers **in Japan and Japanese researchers abroad.**
- **Dissemination** of information, **sharing** information, and **communication** with other researchers.
- Supporting making the **researcher directory and research achievements management system** in Universities and research institutes.
- **Basic data** for analysis of policy making and so on.
- The system is developed by **National Institute of Informatics** (NII).

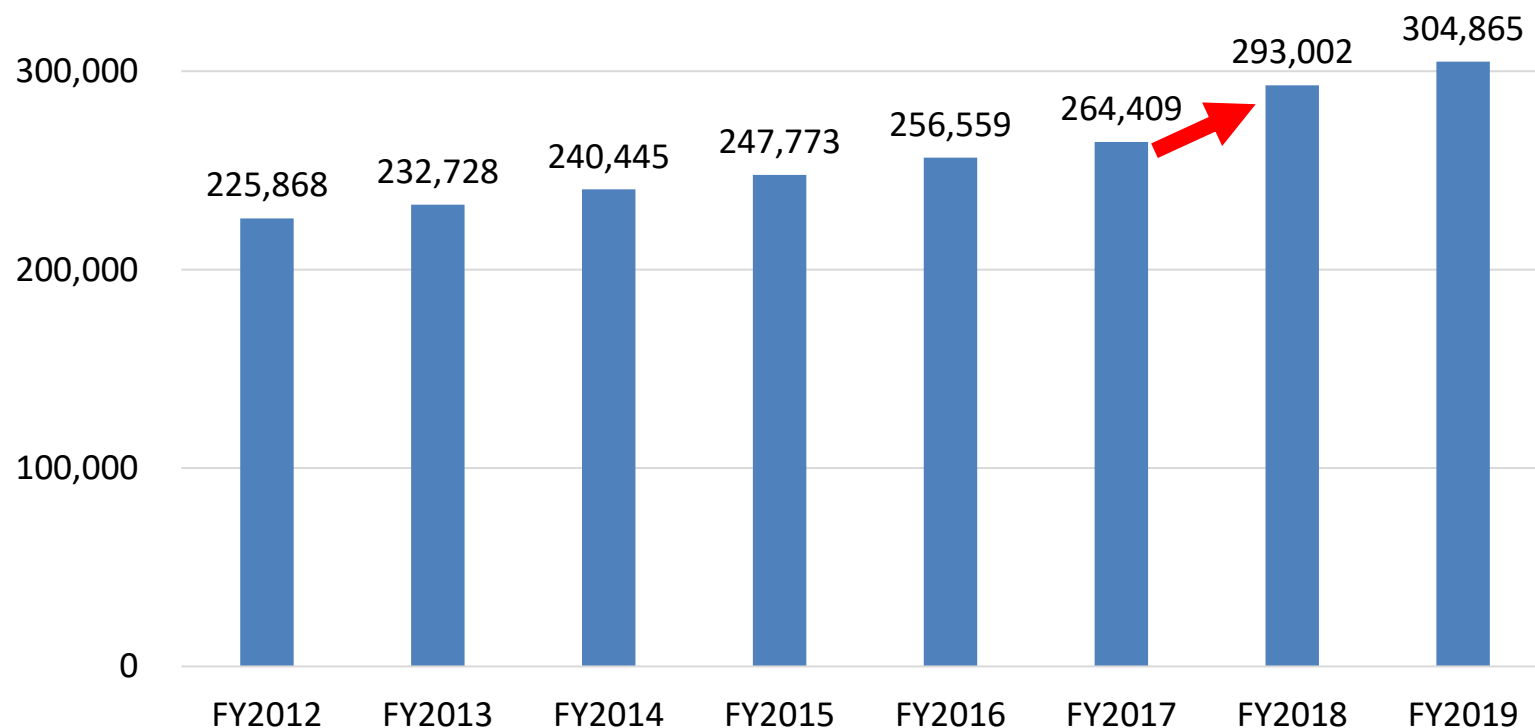

Who can resister

- Researchers who conduct research in Japan and Japanese researchers who are working abroad.

- Research support staff
(Administration staff, URA, Library and so on)

- Doctor course students

No. of registered users

[as reference]

No of researchers in Japan : 874,821

No of researchers in Japanese University : 331,427

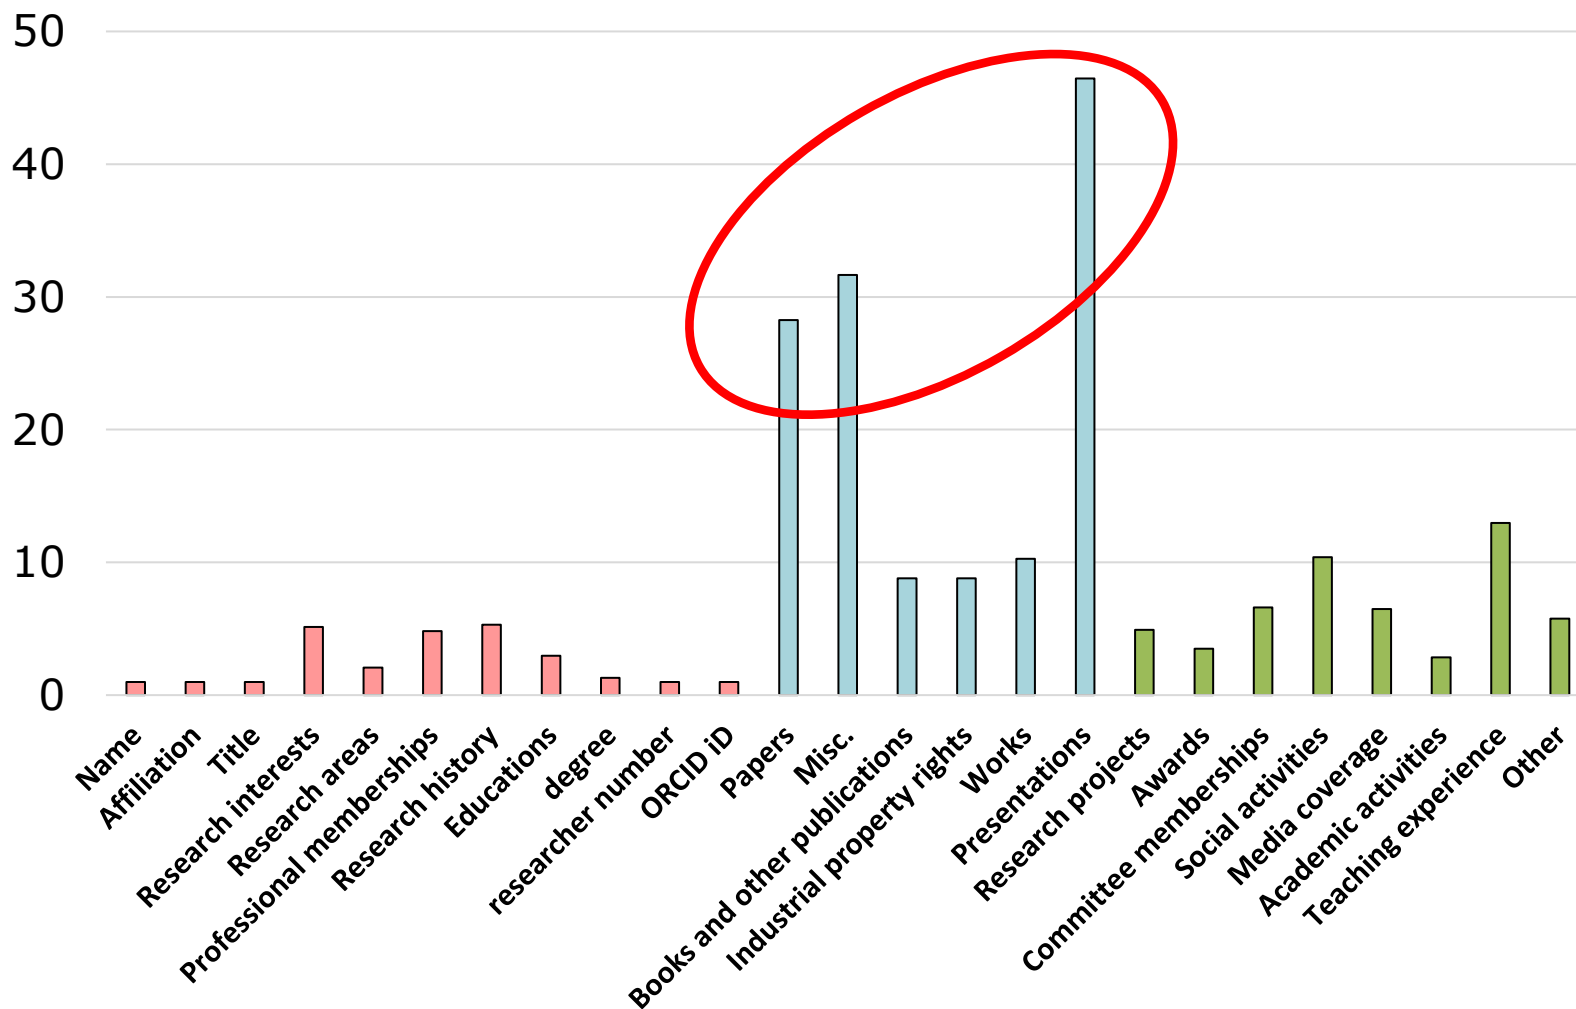

(Survey of Research and Development Japan, FY2019)

How to use in research institution

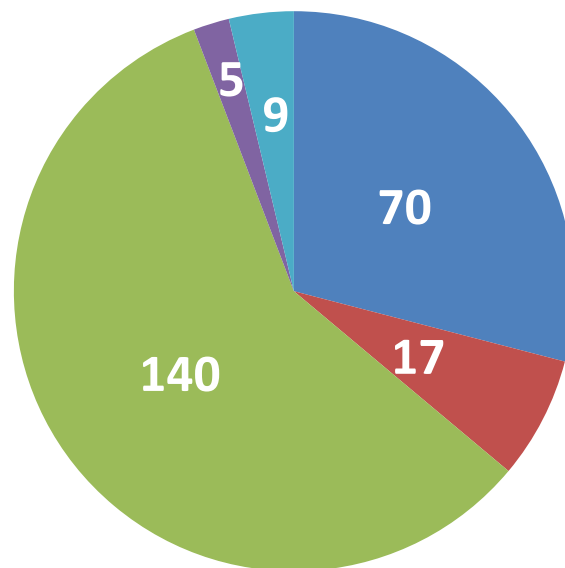

① Institution collects the data from researchers and sends to researchmap.

② Institution uses the data in researchmap updated by researchers.

No. of research institutions using researchmap

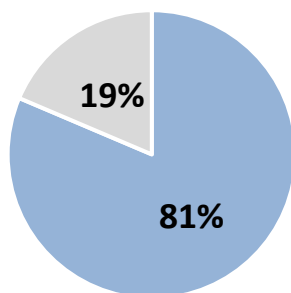

Total:241

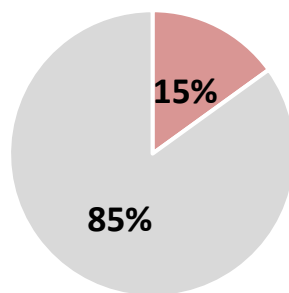

- National univ.
- Public univ.
- private univ.
- National research inst.
- Other

rate by institution type in japan

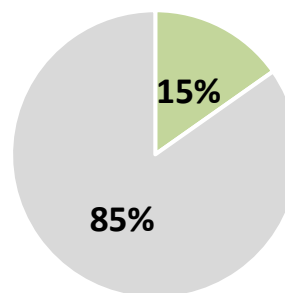

National univ.(N=86)

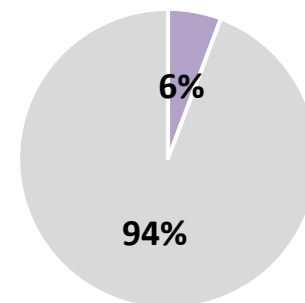

Public univ.(N=113)

private univ.(N=919)

National research inst.(N=87)
