BUILDING
A HEALTHY
AUSTRALIA

Acknowledgement of Country

NHMRC

Funding available for Australian researchers

- Provisional allocation of \$3 million AUD
- Capped \$750,000 per application
- NHMRC only offers 'New' support as a funding modality.

Application requirements

- Australian researchers must submit an application to both NHMRC and the e-ASIA JRP Secretariat to be considered for NHMRC funding
- A copy of the submitted e-ASIA Common Application must be included in the NHMRC application form
- Each researcher from partnering countries must submit their application according to their respective Member Organisation's national rules

Eligibility

- All eligibility requirements will be outlined in the 2025 NHMRC e-ASIA JRP Grant Opportunity Guidelines.
- Projects require support from a minimum of three e-ASIA Member Organisations including NHMRC
- NHMRC requires that collaborations must include a Principal Investigator (PI) from at least one of the participating member organisations from the following countries:
 - Indonesia
 - Thailand
 - Vietnam

e-ASIA JRP

14th Call for Proposal e-ASIA Joint Research Program (JRP)

Sasti Orisa

Directorate for Research and Innovation Funding
Deputy for Facilitation of Research and Innovation

14th Call for Proposal e-ASIA JRP

The e-ASIA Joint Research Program (JRP) aims to develop a collaborative research community in Science and Technology, to promote innovation in the East Asian region, and to contribute to the region's economic development.

Participating Country

Participating Member Organization

Key Research Area

01

Health

Infectious Diseases and Immunology (including Antimicrobial Resistance)

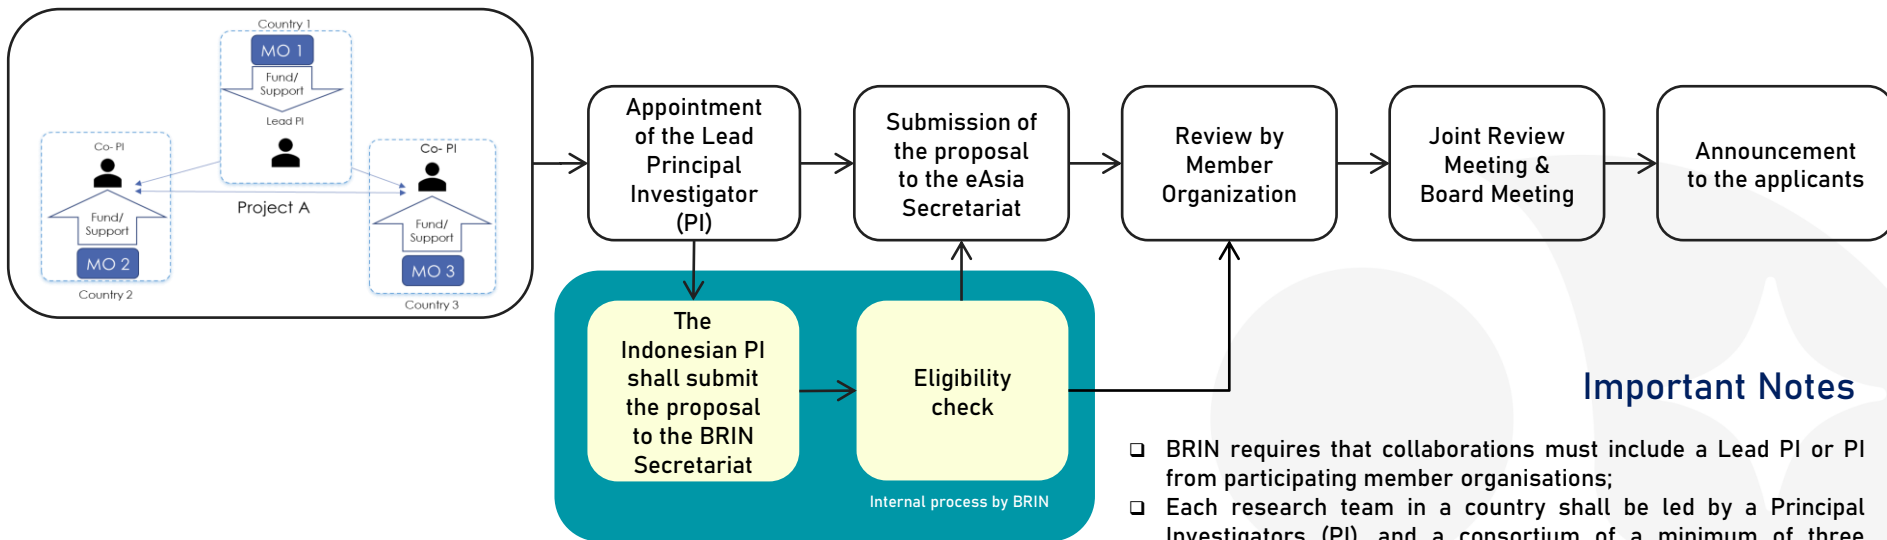

02

Disaster Risk Reduction and Management

03

Alternative Energy

14th Call for Proposal e-ASIA JRP

Important Notes

1. Ensure that the proposal complies with the requirements and check the combination of the countries participating in the call;
2. Recommend that applicants revise their proposal as needed prior to the submission deadline;
3. Determine the proposed budget.

- ❑ BRIN requires that collaborations must include a Lead PI or PI from participating member organisations;
- ❑ Each research team in a country shall be led by a Principal Investigators (PI), and a consortium of a minimum of three countries shall be led by a Lead PI specified among the PIs.
- ❑ The Lead PI will be responsible for running and managing the project. The Lead PI will be the contact point with the e-ASIA JRP Secretariat on behalf of the whole consortium. The Lead PI must be affiliated with an institution situated in one of the participating countries in this call.
- ❑ Applications must be submitted to both email submission to the e-ASIA JRP Secretariat and submission via the BRIN Pendanaan System: <https://pendanaan-risnov.brin.go.id>;

Eligibility Requirements

General Requirements

- ❑ Each research team in a country shall be led by a Principal Investigators (PI), and a consortium of a minimum of three countries shall be led by a Lead PI specified among the PIs.
- ❑ The Lead PI will be responsible for running and managing the project. The Lead PI will be the contact point with the e-ASIA JRP Secretariat on behalf of the whole consortium. The Lead PI must be affiliated with an institution situated in one of the participating countries in this call.

Additional Requirements

- ❑ Other research institutions legally registered in Indonesia, excluding BRIN, must register with the Sistem Informasi Registrasi Lembaga Riset (SEBARIS): <https://sebaris.brin.go.id/daftar>, and comply with its requirement to meet the required administrative and legal obligations;
- ❑ the Indonesia applicants must also complete a research ethical clearance done through the Research Ethical Clearance information system (<https://klirensetik.brin.go.id>) before the project started

Requirements for Indonesian Applicants

The Principal Investigator (PI) submitting proposal to BRIN must be an Indonesian citizen

Hold a doctoral degree qualification and competency in conducting research with international partners

The Principal Investigator (PI) and team members are researcher from BRIN or other Indonesian research entity with appropriate legal registration (university, civil society organizations, and industry/company/business entity);

The Principal Investigator must have a research track record and expertise relevant to the proposed research. Team members must have either a relevant track record or clearly defined roles in the research project where their skill sets provide added value;

The Principal Investigator and team members are allowed to be involved in up to 2 (two) proposals for the RIIM Kolaborasi Internasional e-ASIA JRP funding, either as Principal Investigator on 1 (one) proposal and a team member on 1 (one) proposal, or as a team member on 2 (two) proposals.

General Support

- ❑ BRIN will support up to 5 applications with a maximum amount of IDR 1,000,000,000 per project/year (including researcher mobility and infrastructure sharing).
- ❑ The amounts will be adjusted each year according to the evaluations and budgetary limitations. The duration of the project shall be no longer than 3 (three) years in total from the start date.
- ❑ This support is under the RIIM Kolaborasi Scheme, funded by the investment gains of the Research Endowment Fund managed by the Indonesia Endowment Fund for Education Agency (LPDP) under the Ministry of Finance.

Ineligible Cost

In addition to the above, please note that Indonesian grants cannot cover these following:

- ❑ Equipment/software purchases;
- ❑ Capital expenditure;
- ❑ Personnel expenses for PI, team members, and administrative staff;
- ❑ Expenses for organizing and hosting events (such as workshop, focus group discussion) outside the office of the respective institution; and
- ❑ Expenses for publication and international conference (including registration and attending the international conference)

Eligible Cost

- ❑ Purchase/procurement of chemicals/consumables or materials essentials for research or production components;
- ❑ Honorarium is available only to compensate field workers for their contributions (funding cannot cover personnel expenses for PI, team members, and administrative staff);
- ❑ Meals for meeting that directly related to the research, takes place within the office of the respective institution; and
- ❑ Domestic travel that directly related to the research activities, as well as facilitating the mobility of Indonesian researchers through BRIN's researcher mobility scheme managed by the Directorate of Talent Management.

Please note that the researcher mobility scheme is exclusively for BRIN researchers only. However, Indonesian researchers from other institutions may apply for researcher mobility funding only if they collaborate with BRIN research group. Further information about the researcher mobility scheme, including its provisions and access to the BRIN research group database, can be found at <https://manajementalenta.brin.go.id>.

How to Apply

Applications must be written in English and must comply with the Call Guideline and instruction in the form (as described in *Section III*)

- ❑ The Indonesian PI must register the email addresses of all Indonesian researchers in the research consortium. Each member must confirm their participation in the project on the BRIN Pendanaan System
- ❑ Applications (identical copies of the proposal of the consortium) must be submitted to the BRIN Pendanaan System: <https://pendanaan-risnov.brin.go.id>
- ❑ Applications submitted to the BRIN Pendanaan System must be accompanied by additional documents such as: a signed approval sheet from an authorized official of the institution, the Curriculum Vitae of the Indonesian PI and all team members, and the proposed budget details (RAB)

Indonesian PI who becomes Lead PI of the consortium of three countries must submit the applications of the consortium to the e-ASIA Secretariat (as described in *Section III*)

Important Notes

- ❑ Applicants are required to complete both email submission to the e-ASIA JRP Secretariat (only if the Indonesian applicant is the Lead PI) and submission via the BRIN Pendanaan System. Applications will be considered ineligible if the proposal documents are not submitted by the deadline through both submission systems.
- ❑ It is the Lead PI's responsibility to verify the member organization participation in respective calls, and any additional eligibility requirement specific to the member organization. Partnering country applicants are required to submit their applications to their respective member organization in line with the applicable funding organization due dates.

Required Documents

- ✓ Application/proposal (identical copies of the proposal of the consortium)
- ✓ A signed approval sheet from an authorized official of the institution
- ✓ Proposed budget details (RAB)
- ✓ Curriculum Vitae of the Indonesian PI and all team members

Evaluation Criteria

e-ASIA

1. **Regional Relevance of the research.**
The research activity should contribute to:
 - The advancement of scientific discovery;
 - The development of science and technology in the region; and
 - The resolution of significant relevant issues across the region.
2. **Mutual Benefits of the Joint Research**
Activities of mutual benefit to the collaborators and their institutions are desirable. Mutually beneficial in the sense that the projects utilize unique opportunities the e-ASIA JRP will provide that could not be achieved either through bilateral or individual research but only through multilateral cooperation.
3. **Effectiveness of Exchange.** The project should:
 - Contain activities to nurture early career researchers through research activities;
 - Contain activities to engage female researchers where strengthening capacity is needed; and
 - Enhance research capacity in the region.

BRIN

- ✓ Significance and advantage
- ✓ Roadmap and strategic value
- ✓ Relevant track record/expertise of the research team
- ✓ Collaboration network
- ✓ Budget
- ✓ Research methods

Expected Output

- ❑ Two journal articles (Submitted to Q1 or Q2 international journal) where the Indonesian PI is first author or co-author and/or corresponding author; and/or
- ❑ Intellectual Property with minimum registered status, with a principle of equity noted as a collaborative agreement.

After completing the projects, final evaluation will be performed based on the final reports by the program evaluation committees in BRIN.

Information

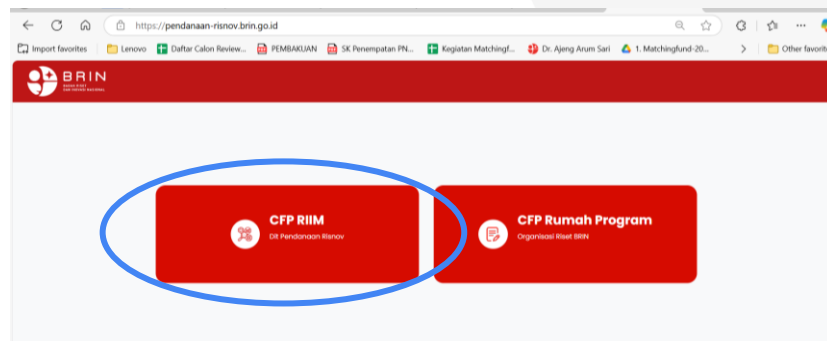

Other Information

Please refer to the RIIM Kolaborasi Internasional e-ASIA JRP Guidelines, available on BRIN Pendanaan System: <https://pendanaan-risnov.brin.go.id> for further information and detailed, including:

- ☐ Reporting
- ☐ Contracted R&D agreement
- ☐ Fund disbursement and return or remaining funds and misused funds
- ☐ Ethical clearance and foreign research permit
- ☐ Material Transfer Agreement
- ☐ Intellectual Property
- ☐ Data and material management

Call & Evaluation Guidelines

e-ASIA Joint Research Program
International Research Synergy Workshop

November 25, 2024

Japan Agency for Medical Research and Development (AMED)

Eligibility Requirements

Eligibility for Japan-based applicants

❑ Project Consortium

- A project consortium must consist of at least three eligible research teams from a minimum of three different participating countries.
- Consortium collaborations must include a Lead PI or PI from at least one of the participating member organizations from Southeast Asia.

❑ Applicants

- The Japan-based PI must be personally affiliated with a domestic research institution and conduct research there.
- Any individual who satisfies any of the following conditions is also eligible.
 - i. Researchers holding citizenship other than Japanese, who belong to a Japanese domestic research institution.
 - ii. Researchers who are not currently affiliated with a particular research institution, but who will be affiliated with a Japanese domestic research institution and able to conduct research there if selected as a Japan-based PI.
 - iii. Japanese researchers currently residing overseas who will be affiliated with a Japanese domestic research institution and able to conduct research there if selected as a Japan-based PI.
- Japan-based PIs must be able to take responsibility for the duties of the entire project for the full duration of the joint research project.

Eligibility for Japan-based applicants

❑ Application submission

- Japan-based applicants are required to complete both e-mail submission to the e-ASIA JRP Secretariat (*Only for Japan-based Lead PIs*) and submission via the “e-Rad” system (*For both Japan-based Lead PIs and PIs*).
- Japan-based applicants (*both Japan-based Lead PIs and PIs*) must submit the Japanese application forms (Form 1J and 2J) in addition to the e-ASIA JRP common application.

Evaluation

Evaluation

❑ Evaluation Process

The program evaluation committees will evaluate proposals.

- Document review - all proposals
- Hearing review - selected candidate proposals.

❑ Evaluation Criteria

1. Compatibility with the program's purpose
2. Scientific/technological significance and advantage
3. Appropriateness of the plan
4. Implementation system
5. Costs
6. e-ASIA JRP evaluation criteria

Communication

Preliminary Evaluation

Proponent's Eligibility

- Must be a Filipino citizen
- With proof of capability and track record
- Endorsed by implementing institution and holds a permanent/plantilla position
- Not due for retirement during the proposed project implementation period
- No existing accountabilities with DOST and attached agencies
- No pending administrative or criminal case involving financial transactions

Preliminary Evaluation

Duplication and Plagiarism Check

- Health Research and Development Information Network (HERDIN)
- Google Scholar and other International Journals
- DOST/Council-funded completed and ongoing projects
- Turnitin

Completion of Documentary Requirements

- Full Proposal
- Detailed line-item budget with counterpart funding
- Curriculum Vitae of project leader and co-researchers
- Endorsement letter from agency head
- Duties and responsibilities of project team
- Applicable supporting documents depending on nature of study (i.e. for those involving human subjects: case report form and informed consent to support methodology and ethical consideration requirements)

Technical Evaluation

The project proposal is evaluated by the Council and a panel of experts based on the following:

- **Relevance and Significance** - alignment to national S&T priorities, strategic relevance to national development and sensitivity to Philippine political context, culture, tradition and gender and development
- **Technical Merit** - sound scientific basis to generate new knowledge or apply existing knowledge in an innovative manner.
- **Financial feasibility** - Financial viability of the undertaking with proponent's and institutional capacity to manage R&D funds vis-à-vis the proposed work plan and budget
- **Proponent and Institutional Capacity** - Good track record or CV with proven competence to implement and complete the R&D program / project within the approved duration and budget.
- **Specific Council Requirements** - How much will the proposal contribute to the overall achievement of the program/call and what are its potential socio-economic, environmental, and health impacts?

Technical Evaluation

Expected Outputs are valued based on 6Ps and 2Is:

Publication

People Services

Social Impact

Patent/IP

**Places &
Partnerships**

Economic Impact

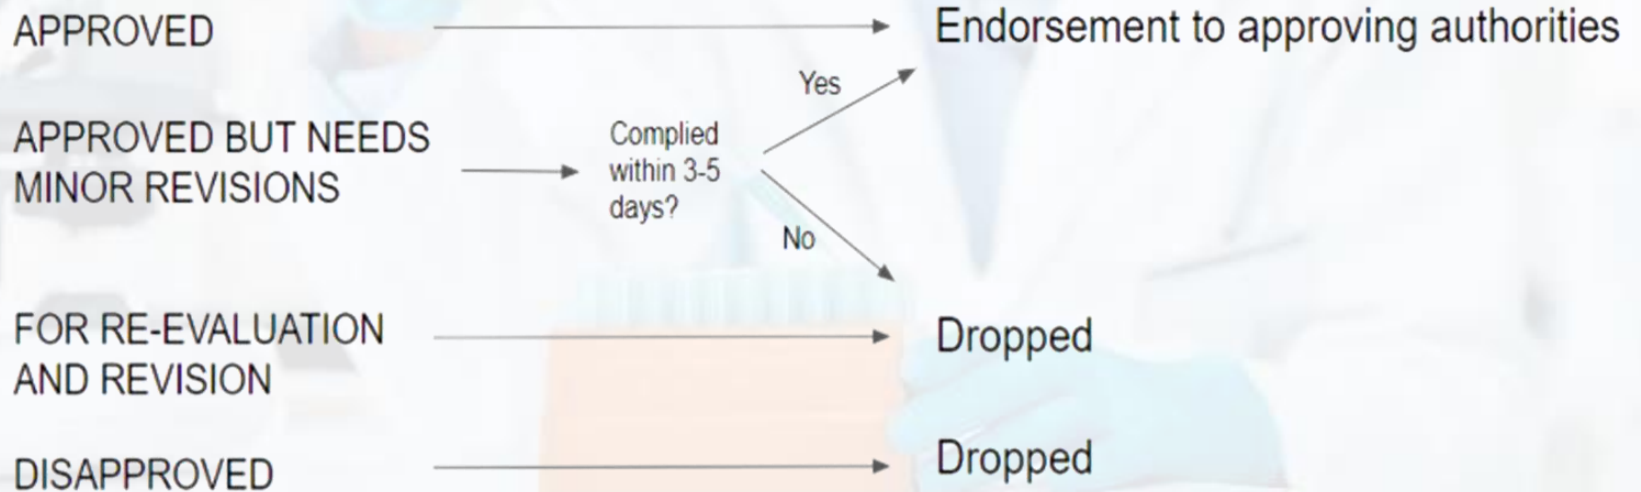

Product

**Policy
Recommendations**

Technical Evaluation Decision

Evaluation by Approving Authorities

Executive Director of Sectoral Council

- Funding will come from the Council
- For projects with requested budget of < PhP 5,000,000.00

**Level of
Approval for
e-Asia Health
R&D Proposals**

Governing Council (GC) of Sectoral Council

- Funding will come from the Council or DOST
- For projects with requested budget of > PhP 5,000,000.00

DOST Executive Committee (DOST-EXECOM)

- Funding will come from DOST
- All projects regardless of the requested budget

Project Initiation

Review of All Requirements to Execute Grant

- Approved Budget
- Ethics Clearance, if applicable
- IACUC clearance and/BAI permit, if applicable
- Financial Requirements for private IAs including NGOs

Processing of RFA

- Preparation of Research Funding Agreement
- RFA signing and notarization

Processing and Transfer of Funds

- Council will release funds to Implementing Agency

Project implementation

Questions?

Philippine Council for Health Research and Development
Department of Science and Technology
Email: jpdepatillo@pchrd.dost.gov.ph

A scientist wearing a white lab coat, a light blue surgical mask, and blue nitrile gloves is working in a laboratory. They are using a pipette to transfer a liquid from a small vial into a multi-well plate. The plate is orange and has many small wells. The scientist's hands are visible, and they are holding the pipette with their right hand and the plate with their left hand. In the background, there is a microscope and other laboratory equipment. The text "Thank you!" is overlaid in the center of the image.

Thank you!

Eligibility Criteria

- PMU-B requires **at least 2 institutes/universities in Thailand** to cooperate with.
- Please complete the joint application form and Thai application form and submit them via **NRIIS system**. This system is the designated platform for Thailand-side PIs to submit their forms.

For Researchers :

- Thai organization (Public/non-profit organization research institute or university in Thailand)
- Researcher can be Thai/Non-Thai affiliated with Thai organization
- Supporting Document from all participating country such as Letter of support (LOS), etc.

For Proposals :

- Proposal topic match with the topic in the call (PMU-B) : ***Health Research (Infectious Diseases and Immunology)***
- The budget is capped and dependent on the project activities. Personnel costs cannot exceed 30% of the total budget.
- Thai PI must submit their proposal in the NRIIS system by **March 31, 2025 (18:00 PM Thailand time)**.
- Thai PI's institute **must endorse the submission** in the NRIIS system by the same time.
- Proposals only with the joint application forms above will be accepted.

Objective and Key Results/OKR 2023 – 2027: N49 (S4P23)

Objective	Expected Output
<p>O1P23: Universities, research centers, government agencies, and private sector entities that collaborate with global or regional networks to produce research, technology, and innovation that benefits Thailand</p>	
Key Result	
<p>KR3P23: Percentage of Research institutions in universities, government agencies, and private companies that are members of international cooperation networks in the field of Science, Research and Innovation and have projects with the network</p>	<ol style="list-style-type: none"> 1) Collaborations or partnerships formed after the completion of a research project. These collaborations should have a direct or indirect connection to the project's activities. It is important to identify the outputs, outcomes, and impacts resulting from these collaborations or partnerships, supported by evidence. 2) A new technology/process prototype or product prototype that has been tested in the laboratory and/or industry level, which can be further developed or add economic value to the industry, community and society. 3) International journal publications in T1/Q1 with the author of the researchers and the foreign institutions with which they collaborated.

National Institute of Allergy and Infectious Diseases

candice.beaubien@nih.gov

NIAID

National Institute of
Allergy and
Infectious Diseases

National Institutes of Health

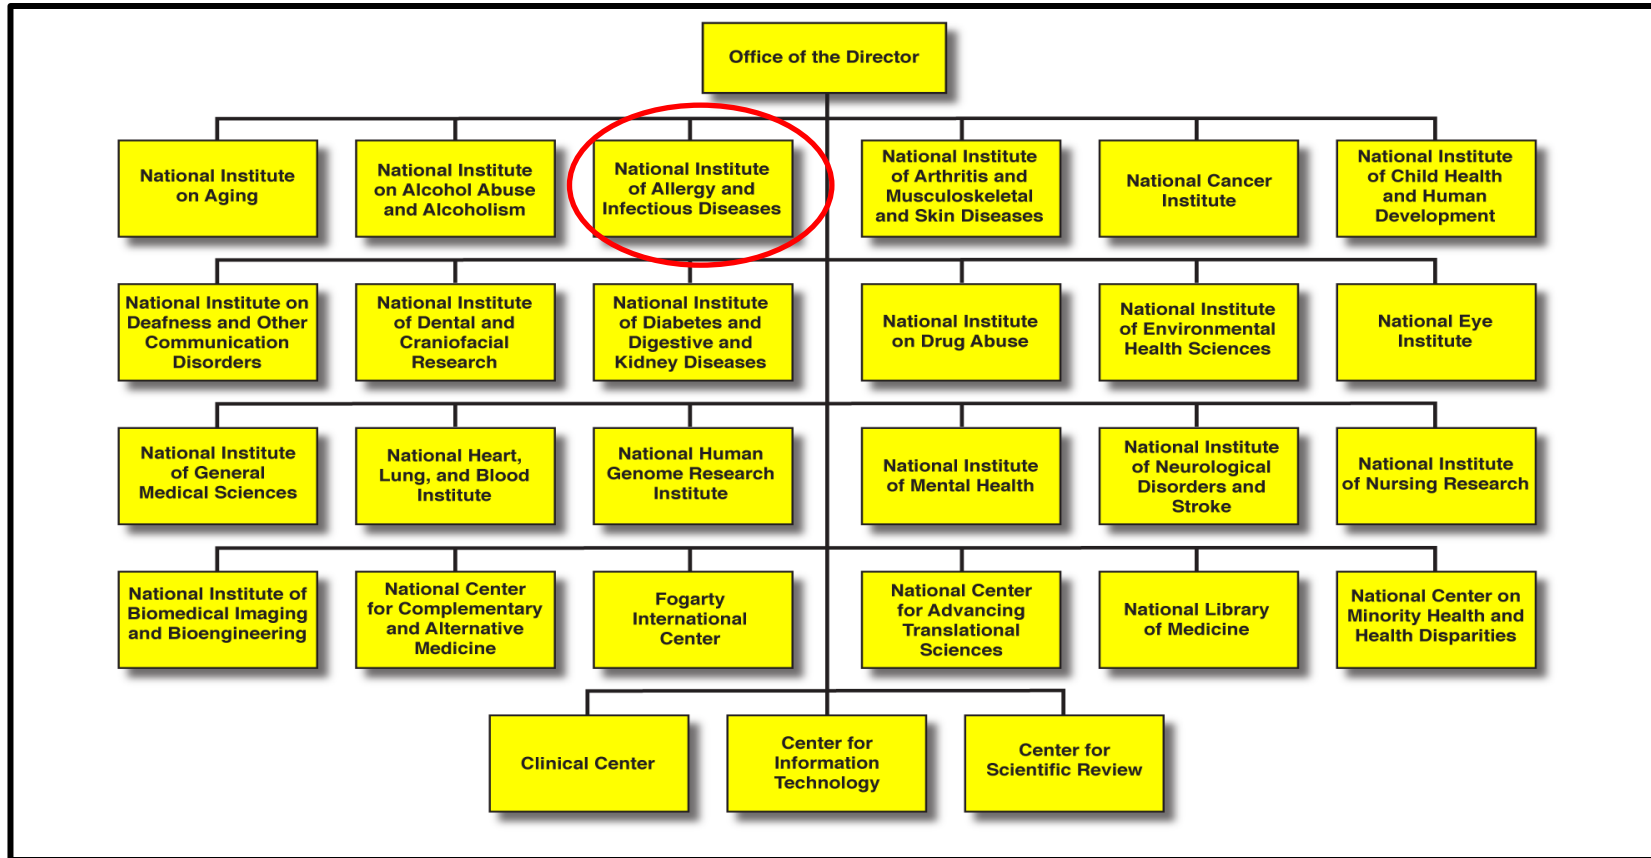

November 24, 2024

The US National Institutes of Health Mission

NIH's Mission:
**Science in Pursuit of Knowledge
to Improve Health**

National Institutes of Health

NIAID Organizational Structure

NIAID Research: A Dual Mandate

Maintain and “grow” a robust basic and applied research portfolio in microbiology, infectious diseases, immunology and immune-mediated diseases

Respond rapidly to new and emerging disease threats

New/Improved Interventions

Building Global Research Relationships

- **Require** research based on the highest scientific quality and ethical principles
- **Develop** research relationships that are mutually beneficial
- **Sustain** long-term collaborations that enhance global research capacity
- **Invest** in locally led, community supported research with global impact
- **Partner** to achieve maximum impact on global health

NIAID Priorities for the e-ASIA Call on Health

- Basic, clinical, and applied biomedical research focused on infectious diseases and immunology
- Biomedical and behavioral health research including:
 - Emerging and re-emerging infectious diseases
 - Antimicrobial resistance
 - Pandemic preparedness and research response
 - Interdisciplinary approaches to address infectious disease, allergic and immunologic diseases

NIAID Specific Eligibility Requirements

- The U.S. PI and participants on the U.S. team may be foreign nationals (U.S. permanent residents or visa holders) but must reside in the United States for at least 50% of the award period.
- Graduate students on the U.S. team may be foreign nationals, but they must be enrolled in an accredited degree program at a U.S. institution during the period of their participation in the project.
- Scientists, and other personnel working in U.S. federal government facilities, whose salaries are paid using direct U.S. federal funding, or personnel working under a contract supported by the U.S. federal government, may apply for this program; however, they are not permitted to receive funding or other support.

Additional Evaluation Criteria

- **Research Plan:** How well the individual elements of the project plan fit with the overall project goals.
- **Technical Merit:** The technical soundness of the proposed work, the project's management plan, and adequacy of the resources available, both technical and financial.
- **Research Impact:** The probability that the project will result in new knowledge in one or more research fields or have a positive impact on health of the population in the East Asia region or/and all over the world.
